

TEN THOUSAND SLAIN BY RED GUARDS

THREAT OF LLOYD GEORGE TO RESIGN IS SENSATION.

Revolt of 'Die Hard' Tories During Premier's Absence in France Cause of Present Crisis.

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, March 1.—The Prime Minister's threat of resignation has been the political sensation of the day. Hints of Mr. Lloyd George's resignation have been current ever since Sir George Younger, head of the Conservative party organization, engineered a revolt of some fifty "die hard" Tories against the Premier during the latter's absence at the Cannes meeting.

TAP TREATY IS RATIFIED

First Roll Call a Success.

Bitter Fight Against Four-Power Pact Is Expected in Senate Today.

(BY A. P. NIGHT WIRE.)
WASHINGTON, March 1.—Taking its first ratification roll call on the series of international agreements negotiated at the Arms Conference, the Senate today ratified without reservation or amendment the treaty with Japan concerning American cable and radio rights on the island of Yap.

The final vote was 47 to 22, a margin of seven over the necessary two-thirds. The thirty-two Democrats present divided, thirteen for ratification and nineteen against. Only three Republicans voted in the negative.

COVERED IN TREATY.

In opposing the radio amendment, Senator Lodge of Massachusetts, leader of the Democrats, declared that under the treaty this government would surrender its efficiency of service rendered, and that to allow other reservations or amendments would require that the long-standing Yap problem be reopened.

Mexico City May be Darkened by General Strike.

(BY A. P. NIGHT WIRE.)
MEXICO CITY, March 1.—A general strike, which contemplates shutting Mexico City off its light and street cars, is probable, following a day of conferences between the union leaders and government officials. The strikers are demanding higher wages and a change in hours of work. The chauffeurs who had been on strike but temporarily settled their grievances yesterday, went on strike today.

NOT A SHIP CAN MOVE IF HOUSE COMMITTEE WINS.

Leaves Only \$6,200,000 for Fuel for Balance of Year; Would Keep Navy at Anchor.

(BY A. P. NIGHT WIRE.)
WASHINGTON, March 1.—Necessity of tying up every ship in the Navy for lack of fuel to permit operation faced the Navy Department as an immediate probability tonight, due to action of the House Appropriations Committee in reporting out today a deficiency item of \$6,200,000 for naval fuel to be used during the remainder of the fiscal year. This sum is about one-half of the original fuel-deficiency estimate submitted by the department.

STRIKE OF PRESSMEN IS SETTLED.

New York Newspapers Will Come Out in Regular Dress Today.

(BY A. P. NIGHT WIRE.)
NEW YORK, March 1.—New York morning newspapers, which appeared in abbreviated form today, because of a delay by the local web pressmen's union in accepting terms of an arbitration award handed down by Federal Judge Manton, will appear in regular dress tomorrow morning. It was announced tonight.

GETS GOOD PRICES.

In the meantime American observers say they have been informed that Germany is quietly but effectively exporting dyes to the United States at prices two and three times higher than she had been credited with by her reparations commission. The German dye manufacturers, these observers assert, would like the reparations commission arrangement abolished so that she might sell direct to the United States at greatly increased prices. It is added that the committee does not take this view of Germany, and that it probably would demand a resumption of deliveries of dyes if the matter were placed in its hands.

Dail Hears Where All the Money Went.

Sin Fein Last Year Spent 315,434 Pounds.

Cash Balance of \$3,465,072 Net on Hand.

DUBLIN, March 1.—The purpose for which money, raised in the United States to aid Irish independence, was used was revealed by Michael Collins, Minister of Finance of Dail Eireann, in his report for 1921, which he read yesterday at the meeting of the Dail. The total receipts during the year were £319,448 (roughly \$1,427,516). Of this £277,577 (\$1,255,086) came from the United States.

HOW MONEY WENT. The expenditures were £215,434 (\$1,439,462). Of this 43 per cent, or £137,485 (\$818,673) was spent by the Minister of Defense, Neill, for the equipment and payment of the army, continuing under the Dail, and of the estimated expenditures this year of \$50,000 (\$1,255,086) nearly three times as much as the organization and upkeep of the new army. The Foreign Minister expended £10,112 (\$135,552) which went for propaganda as follows: Paris \$2,355; Russia, \$2,580; Buenos Aires, \$4,500; Roma, \$24,485; Berlin, \$2,922; Madrid, \$2,161; London, \$18,441; Africa, \$2,250; Geneva, \$2,250; United States, \$1912, and the Irish world conference, Paris, \$4,808. The Department of Home Affairs, including the republican courts and the police, spent \$73,917; the Department of Agriculture, \$21,784; Finance, \$27,405, and Education, \$3,566. The negotiations leading to the treaty with Great Britain cost \$70,191, and executing the Belfast boycott, \$40,818.

CONGRESS CAN'T AGREE ON MUSCLE SHOALS. UNABLE ALSO TO DECIDE HOW MANY SENATORS GET TRIP. WASHINGTON, March 1.—Little progress was made in Congress today by committees engaged in the consideration of proposals from private enterprises for the completion, operation, lease and purchase of the government's projects at Muscle Shoals, Ala. The Senate Agriculture Committee still was unable to reach a decision on the question of how many Senators will visit the shoals territory, or when they will go, and only a forenoon meeting was held by the House Military Committee on the proposals submitted by Henry Ford for purchase and lease of the shoals property. The meeting was entirely given over to a legal discussion between Hubert Dent, chief counsel for the Ford company, and Representative Oliver, Democrat, of Alabama, as to the legality of the contract held by the company, giving it the exclusive right to purchase the steam-power plant at Warrior, in event the government should dispose of its interests there. Mr. Dent declared Congress would never be able to accept the Ford offer as long as it included the clause requiring the government to give Mr. Ford clear titles to the power company's property at Warrior.

\$304,940,332,912,585.16 JUDGMENT RESULT! SMALL LOAN YEARS AGO.

(BY A. P. MONT WIRE.) SAN JOSE, March 1.—When George Jones borrowed \$100 for three months at 10 per cent a month interest, Jan. 18, 1917, from Henry R. Stuart, he did not figure perhaps that the loan would lead up to a judgment against him for \$304,940,332,912,585.16 in the Superior Court today. "Compound interest" is the explanation.

Stuart charged that Jones disappeared after the loan. He reappeared recently and Stuart brought suit, holding that the debt was not outlawed because Jones had remained outside of the State. The court found for Stuart, named the figure and announced that it was the only judgment he could return under the circumstances. Counsel for Jones said that his client expected to go through bankruptcy.

CONTRACT DISEASE THEY ARE STUDYING.

GOVERNMENT WORKERS VICTIMS OF TULAREMIA, OF UTAH.

(EXCLUSIVE DISPATCH.) WASHINGTON, March 1.—All six of the laboratory workers of the United States Public Health Service who have been studying tularemia, a disabling sickness of man which has been known, particularly in Utah, for the last five years, have contracted the disease, two of them being infected in the laboratory in Utah and the other four in the hygienic laboratory in Washington. Such a record of morbidity among investigators of a disease is probably unique in the history of experimental medicine.

Two of these workers are physicians; one is a highly-trained scientist, and the others are experienced laboratory assistants. One of them contracted the disease twice.

The disease has few fatalities, its chief interest arising from the long period of illness which it causes in midsummer.

The studies into the cause and transmission of the disease have it to be due to a germ which is conveyed by six different insects. It appears possible that the germ also may enter through unbroken skin; for instance, that of the hands.

SECURITY: These bonds are to be the direct obligation of the City of San Paulo. They are to be specifically secured: (1) By a first charge on the receipts from the sanitary and vehicle taxes, (2) By a charge on the transportation tax and the industry and professions taxes, subject to prior charges on the 6% external dollar loan of 1919 and the 6% sterling loan. These receipts, figured at the current rate of exchange, from the sanitary and vehicle taxes for 1921, were reported at approximately \$411,750, and the equity in the transportation and industry and professions taxes was reported at \$352,940, a total of approximately \$764,690. The receipts from the above sources similarly computed, at the current rate of exchange, are estimated for 1922 to be \$861,890, as compared with approximately \$764,690 in 1921.

DEBT: The total funded debt of the City, both external and internal, as published, as of December 31, 1920, was \$15,210,522. This includes the internal debt figured at the current rate of exchange and the external debt at par of exchange. The assessed valuation of real estate in the City is reported at approximately \$340,000,000, computed at par of exchange. We are advised that the city has no floating debt.

REVENUES: The total revenues of the city in 1921, as reported, at current rate of exchange, amounted to \$2,632,500 and are estimated at over \$3,000,000 for 1922 figured at the same rate of exchange.

PURPOSE: We are advised that the proceeds of this loan are to be used in the construction and improvements of streets, tunnels and the municipal market.

SINKING FUND: The City is to agree under the loan contract to pay the Fiscal Agents annually on April 1st of each year commencing April 1, 1923, the sum of \$137,931 (1-29 of the issue) to be applied during the succeeding 12 months to the purchase of the bonds at not exceeding par, but not to be required to be applied to the purchase of an amount exceeding \$138,000 of said bonds annually. Any unused balance at the end of each such 12 months' period to be credited to the account of the City.

CITY OF SAN PAULO: With a population estimated at over 500,000, this city is the capital and industrial center of the State of San Paulo, which is considered the most important State commercially in Brazil. Its settlement dates back to 1561. It ranks as the second largest city in Brazil and the third in all South America. It is the converging point for a network of several thousand miles of railway servicing the surrounding territory and adjoining states, including the noted coffee-growing sections of San Paulo.

ALBERS OVERSOLD.

A heavy oversubscription was reported yesterday by the syndicate managers of the new offering of \$1,500,000 Albers Brothers Milling Company twenty-year 7 1/2 per cent first closed mortgage sinking fund bonds. Local dealers who handled the issue were the William R. Staats Company, Carstens & Earles, the First Securities Company, G. Brashers & Co., McDonald & Co., Lewis & Co., Drake, Riley & Thomas, Stevens, Page & Sterling, the California Bank, Bond & Goodwin & Tucker, Hunter, Dulin & Co., the Howard G. Rath Company, the District Bond Company, Paul B. Hammond and Bayly Brothers.

DRINK MORE COFFEE.

The per capita consumption of coffee in the United States has steadily increased for many years. The average consumption in the year just ended was about twelve and a half pounds per capita, against an average of slightly less than five pounds per capita in the decade ending with 1870; eight and a half pounds per capita in the period 1891-5; nine and a half pounds per capita in the period 1906-12, and has averaged since the beginning of the war over ten pounds per capita, advancing to twelve and a half pounds in 1921. Approximately one-half of the coffee produced in the world is consumed in the United States.

REGULATING UTILITIES.

Mr. David Babcock, resident partner for Blyth, Witter & Co., lectured yesterday to the class in securities of a public utility to the commerce and business administration of the University of Southern California. He discussed "Public Utility Regulation in the State of California."

Mr. Babcock spoke of the time when public utilities were not regulated, and due to this lack of regulation they were greatly over-capitalized and did many things which caused a lack of confidence in the period of reaction set in against the public utility, which culminated in the establishment of the Railroad Commission.

The speaker recalled a time when it was impossible to sell the securities of a public utility to the people in the district which that utility was serving, so slight was the confidence in the company. On the other hand since the Rail-

Rich Shipping Ore

Why risk your money speculating in wildcat mining stocks being manipulated by someone who expects to find something, some day, maybe, in the future, when you can buy an interest in two high grade developed and equipped mining properties, consolidated by well known mining men who are now making arrangements to resume development work and high grade ore shipments. High grade ore in sight right now in many places and high values absolutely proved by careful shipments of high grade ore already made. I want to interest one or more people who can invest from \$1000 to \$5000 with me in these properties and share pro rata in the ownership and profits. Brokers and promoters, don't waste your time and mine answering this advertisement. For appointment, Phone Pico 428, or Address C, Box 523, care of Times Branch.

EMPLOYEES TELL UNION EFFORTS.

Intimidation and Coercion
Laid to Organizers.

Officials of Organizations
Fight Injunction Asked.

Request for Dismissal is
Overruled by Court.

Rapid progress was made yesterday in U. S. District Judge Rudin's court in the hearing of the action brought by the Pacific Electric against officers and agents of the Brotherhood of Railroad Trainmen and Locomotive Engineers to make permanent the preliminary order enjoining the defendants from engaging in a strike on the Pacific Electric. This order was issued by Judge Bledsoe on July 2, 1918, and later was confirmed by the United States Circuit Court of Appeals.

FOR ANNEX TO CITY HALL.

President John D. Fredericks of the Chamber of Commerce, President George I. Cochran of the Pacific Mutual Life Insurance Company, former U. S. Senator Frank P. Flint, Isaac Milbank, J. B. Van Noy, W. A. Faris, W. D. Woolwine and a number of other prominent citizens signed a petition which was presented to the City Council yesterday recommending the purchase by the city of the Douglas Building at Third and Spring streets to be used as a City Hall annex.

The petitioners point out that the Douglas Building at the of- fered price of \$450,000 on time payments represents a sound investment for the city which can be readily disposed of when the new civic center is established.

President Criswell referred the petition to the special committee which has investigated the offers made to the city and which had reported in favor of the purchase of the Douglas Building. Immediate action in the purchase of a building is desired by the board of library directors so that the city building now on Normal Hill can be razed to make way for the new \$1,600,000 central public library.

ruled by the court and the testimony of M. E. Montgomery, one of the defendants in the action, and assistant grand chief engineer of the Brotherhood of Locomotive Engineers, was concluded. The cross-examination begun yesterday will be ended today. J. A. Farquarson, organizer of the Brotherhood of Railroad Trainmen, one of the defendants, will be called to the stand today, it is stated.

Attorneys in behalf of the defendants, at the conclusion of the testimony for the plaintiffs, asked that the bill be dismissed on the grounds that there had been no case made out against the defendants; no testimony that would connect either Montgomery or Farquarson with the use of intimidation and force in an attempt to unionize the Pacific Electric; that the original bill was filed as a war measure and at this time was not at all applicable, as the crisis which it was intended to cure had passed, but Judge Rudin overruled the motion without passing on its merits.

MONTGOMERY TESTIFIES.

The first witness for the defense, M. E. Montgomery, testified that he was a resident of San Jose, and had his present position since June 1, 1913; that he was not in Los Angeles until June 11, 1918, just before the strike of July in that year; that he had been sent here by Warren Stone, chief engineer, to look after what was considered a "serious situation," and that he attended one of the meetings of the employees of the Pacific Electric in Burbank Hall in June. Continuing, he stated he had talked to no union men either in June or July before he reached the city, and he denied that the R. of L. E. was affiliated with the Federation of Labor and declared that the order with which he was connected was not in favor of a "closed shop," persons not members of the union were not excluded from employment, they were open to anybody, he said. He did not come to Los Angeles, Montgomery said, to unionize the employees of the Pacific Electric, declaring he found three strong local unions organized. He says he did not ask employees of the Pacific Electric to become members of the unions, and denied soliciting membership on the property of the Pacific Electric. Montgomery said he knew nothing officially of the strike here in August, 1919.

He said the strike was not authorized by the Brotherhood of Locomotive Engineers, and that it was called off on July 16, 1918, and the incident was considered closed. The witness declared there had been no attempt to instigate a strike here since that of 1918. Montgomery denied that he had ever heard of A. N. Miller, one of the organizers, until he reached Los Angeles. He admitted that three of the large labor organizations of the country—the Brotherhood of Railroad Trainmen, the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen had united in sending him here to look over what the labor leaders considered a "serious situation."

On cross-examination, Mr. Montgomery said that at employees of the Pacific Electric were eligible to membership in the organizations represented by Mr. Farquarson and himself and he went into detail regarding official settlement of the strike of July, 1918, until the session adjourned.

TELL OF UNION EFFORTS.

There was a flood of testimony in behalf of the Pacific Electric at the morning session of the court. The list of witnesses included conductors, motormen, executives and others. Some were members of the Brotherhood of Railroad Trainmen and Brotherhood of Locomotive Engineers; others were not, but they all testified to the efforts of the unions to organize the employees of the Pacific Electric previous to the strike of July 2, 1918, and subsequent up to the strike of the switchmen in August, 1919.

The efforts of the attorneys were directed to two points. On the part of the Pacific Electric to show that employees of the line had been intimidated and coerced previous to the first strike and that the second was but a continuation of the outbreak that later resulted in the conviction of a number of the striking switchmen in Judge Bledsoe's court. The attorneys for the defendants put in the most of their time trying to show that the men charged with threatening employees of the Pacific Electric were employees of that line who had joined the union and were seeking to coerce their fellow-employees to do so and were not among the defendants named in the bill.

FIGHT OVER ALIMONY.

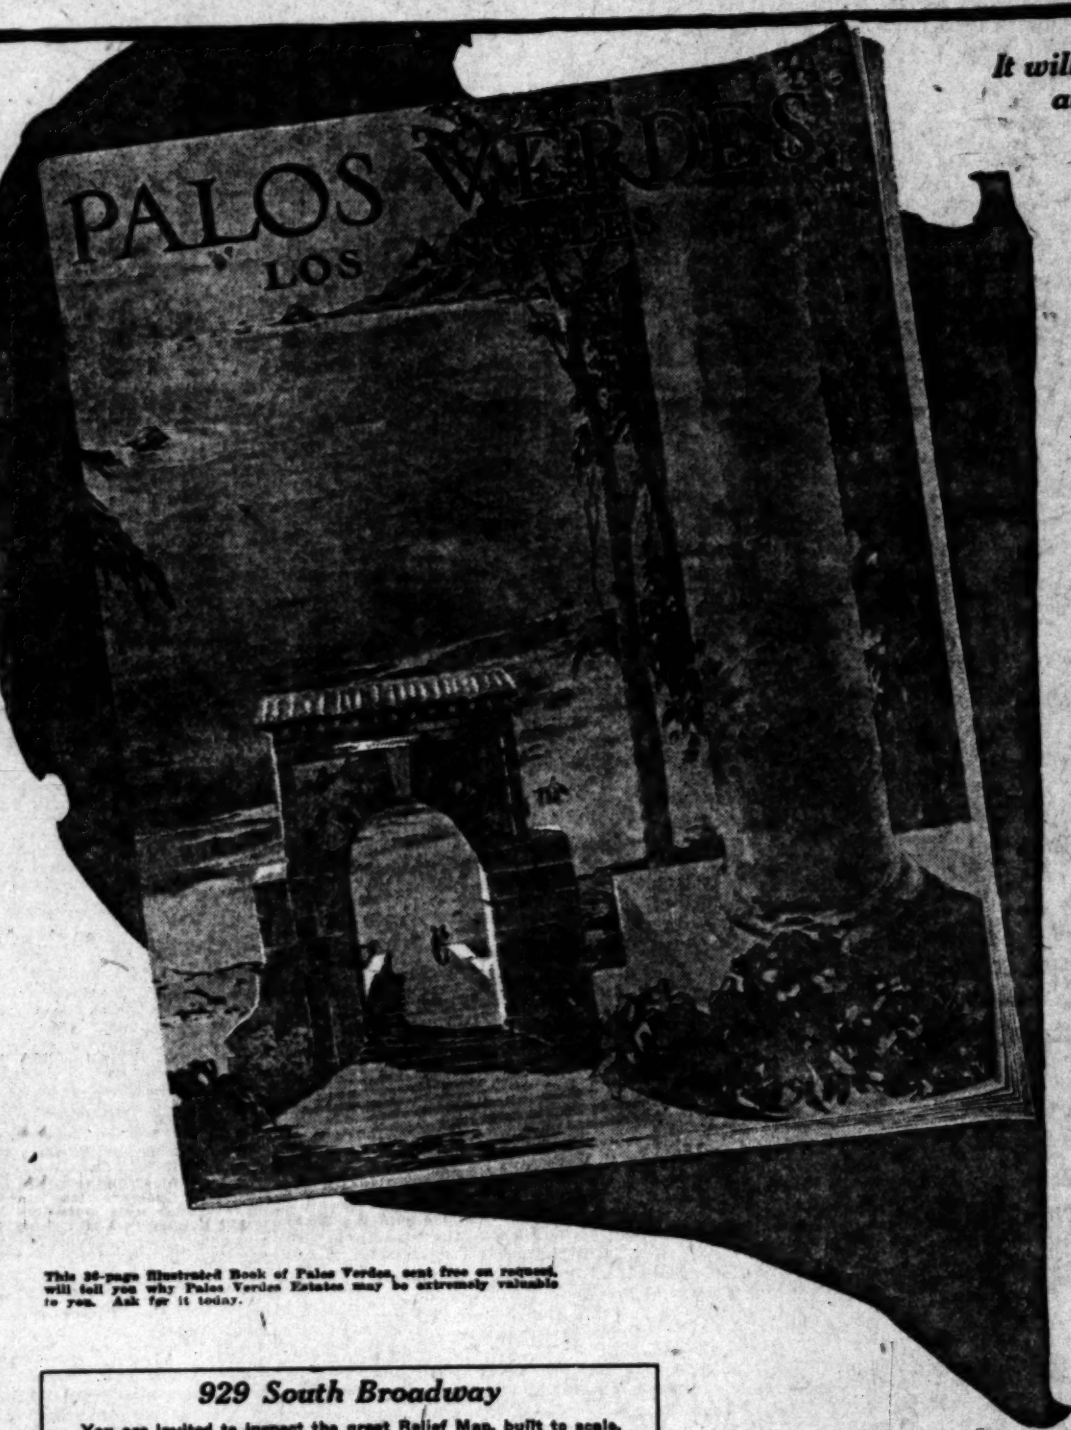

Increase and Decrease Asked in Petitions; Both Denied.

Mrs. Eva Grant asked for an increase in alimony in Judge McClellan's court yesterday, while her husband, George A. Grant, an artist, wanted the alimony reduced. The court denied both motions. Mr. Grant, in his wife's suit for divorce, is charged with cruelty. On one occasion, she declares, he came home late at night, made a great uproar on the stove, smashed the doors and pulled the bed clothes off herself and their children. On another occasion, she says he kicked her out of bed. By an order of the court sometime ago, Mr. Grant is paying his wife \$30 a week.

OPEN NEW SCHOOL.

Convinced, they declare, that Los Angeles will be "The Athens of America," and that all worthy educational institutions will be recognized in making it so, M. De Leon and Charles Wolfe have opened the Los Angeles School of Interior Decoration at 934 West Seventh street, teaching the practical and artistic essentials of modern interior decoration. The school is headed by Mr. De Leon as principal of faculty and Mr. Wolfe as director.

6 reasons why you should send for this book

It will be mailed to you at your request

1. You should know how and why you can have your own permanent home on the site you select in a beautiful seashore area of twenty-five square miles, in the center of the Greater Los Angeles shore line, AT COST OF THE DEVELOPED LAND, AND AT COST OF BUILDING YOUR HOUSE.
2. You should know how you may purchase AT COST additional land for residential or business purposes, as an investment, in the wonderful Palos Verdes Estates—the only large seashore area for thirty-five miles now held intact, and now to be developed and sold.
3. You should know why, by developing Palos Verdes Estates through wide-spread subscription, millions of dollars will be saved for the owners as compared with the usual selling cost of 30 per cent on real estate developments.
4. You should know how you may buy a part ownership in the development of Palos Verdes Estates just as you can buy any other sound security and share the resulting profits without converting your subscription into any particular piece of land—an important fact for many investors.
5. With Los Angeles County land values increasing at the rate of Fifty Million Dollars a year—a thousand dollars for each newcomer—you should find out just where you stand and how you may share in the great fortunes arising from this increase.
6. You should plan to live in the most delightful place that your means permit, and you should plan to get the largest possible returns, consistent with safety, from your investments. Learn what Palos Verdes Estates offer you. Then decide for yourself.

Kept Revolver to Scare Wife, is Her Charge.

Mrs. Emma Bayha Morlock, member of a pioneer family, was granted a divorce from Max Morlock in Judge Summerfield's court yesterday. Mrs. Morlock, who was married in this city Nov. 27, 1901, and has three sons and one daughter, charged her husband with cruelty. She declared that Mr. Morlock kept a loaded revolver in his bed, threatened to shoot her, called her names and falsely accused her. The court awarded her \$150 a month for her support and granted her the custody of her children.

FUNERAL TO BE HELD IN FLOWER CHAPEL.

Funeral services for Mrs. Anna Galloway, wife of Charles F. Galloway, will be conducted in the Chapel of Flowers, Forest Lawn Cemetery, at 3 p.m. today. The deceased was born and reared in Columbus, O., where she received her education, and was in her fifty-third year when she passed away at Glendale Sanatorium. She had been a resident of this city, with her family, since 1906. She leaves, in addition to her husband, four children, Blaine, Harold, Amore and Miss Anna May Galloway. The Galloways lived at 1222 West Fifty-first street.

INVESTIGATING FIRE.

Search Ruins for Cause of Blaze in Hollywood.
In an effort to establish the cause of the \$200,000 fire that early yesterday morning destroyed three industrial plants in Hollywood, the police yesterday began an investigation of the ruins. The officials were at first informed that the explosion of an oil stove in one of the buildings started the fire, but yesterday the report was denied. The establishments destroyed were the Ideal Window and Supply Company, 6815 Santa Monica Boulevard; the George L. Eastman Company, contractors, and the Peerless Plumbing and Supply Company.

POLICE HUNT TRIO.

Victim of Bullet After Poker Game May Die.
Police continued to search the city yesterday for three men believed to have shot and seriously wounded William Henry, Southern Pacific switchman, following a poker game in a garage at 149 West Pico street. The shooting occurred late Tuesday afternoon. Henry is in the County Hospital, and according to surgeons, may not recover. From all the police learn, Henry, with three other men, was engaged in a poker game, in which the stakes ran as high as \$4000 on one hand. Just after the game broke up Henry was shot, and three men were seen fleeing from the garage.

TAX DODGING CHARGED

Portland Man Arrested Here on Federal Indictment.
Arthur H. Knaus was taken into custody at 848 West Ninth street yesterday, by Deputy United States Marshal Monteleone, and placed in the County Jail. It is stated in the complaint that he is wanted at Portland, Ore., to answer an indictment returned by the Federal Court of that district, charging him with making a false income-tax return in March, 1919, for 1918. It is charged that his return was \$11,912.87 less than it should have been.

ANGELS SENTENCED TO BEGIN HARD LABOR TODAY IN ELSINORE CAMP.

VILLEFERITES TAKE IT EASY ON OPENING DAY.

Twenty-six Athletes Breeze Into Lake District and Start Off Spring Grind.

BY HARRY A. WILLIAMS.
(SPECIAL CORRESPONDENCE.)

ELSINORE, March 1.—On this first day of March the Angels entered Elsinore like lions and it is to be hoped that they won't go out like lamb chops. In 1916 Martin Longo fed our athletes mainly on goat meat, but times have changed and the young and succulent lamp chop now embellishes the bill of fare.

In the Los Angeles party are twenty-six men, not including newspaper men, who have no work to do.

SELECT BUNDS.
The main bunch landed here about 4 p.m. and nothing was done except pick up their bundles for the night. Tomorrow there will be two workouts, three meals and the customary hike over Trouble Trail.

Mr. Mary Gard, who had the food cartons loaded to the mules, and the athletes are being well at Mr. Wright's expense.

Business Manager Lockhart and Secretary Weber arrived down today, and will return tomorrow. Mr. Weber, just before leaving Los Angeles, bought a \$5000 home just to show how little he cares about being in debt. President Patrick is to be here tomorrow.

Mac Wheat, our new catcher from Philadelphia, says he has no idea how they tried Charley Deal down from the big league.

"Addie from Hattie Grah," he was the real class at the difficult career in both majors," declared Wheat.

THE CHOW HOUNDS.
Those who have picked out their reserved seats here in the new house are: Griggs, Baldwin, Thomas, Doc Randall, Hughes, Brown, Dummer, Waller, Wheat, Bush, Wintner, Beck, Haas, Lindgren, Robertson, Barnett, Smith, Davis, Rego, Caffey, Griffin and Cook.

Louis Deemer, hustling owner of the open-based ball grounds, was out to greet the athletes. We haven't had time to give the town its annual inspection yet, but Mr. Deemer's drive is said to have gone through the heaviest traffic in years without springing a leak.

ROMANOFF DEFEATS CY CODY.

Local Wrestler is Too Clever for Honolulu Man, Gaining Two Falls.

Constantine Romanoff proved to be too clever, foxy and strong for Cy Cody, the Honolulu wrestler, at the Union League Club's gymnasium last night, winning two falls.

Romanoff, engaged to pin Cody's shoulders to the mat twice within an hour. The bout was the first ever pulled off in Los Angeles according to the new method of wrestling. The grapplers worked by rounds, each of ten minutes duration, with two minutes' rest between rounds.

Increases Speed by Use of Streamline Wheels.

Here is Jimmy Murphy, the handsome Irish pilot, seated at the wheel of his chariot, showing the spun aluminum disks with which he has covered his wire wheels. It is claimed this device will increase his speed one second per lap at Beverly—an increase from 112.2 miles per hour to 114.8 miles per hour. The disks are drawn out instead of in, like the Disteel wheel. In airplane construction it is estimated the streamline wheel adds fifteen miles per hour to the speed of the plane in the air.

TRACKMEN OF VALLEY TRIUMPH.

Lincoln High Second Team Bows to San Fernando Preps in Dual Track Meet.

Coach Frank Muller's San Fernando High School track team defeated the Lincoln High second team in a dual meet held on the former's field yesterday afternoon by a score of 88 to 25. The 100 and 220-yard dashes were the feature events of the day. Smith, a San Fernando lad, broke the tape in both events, making the fast time of 16.1-15.2 in the century and 37.4 in the furions. He was closely pressed in the 100 by Steele, a sprinter from the North Broadway institution, but the Gold and Black runner ran away from the rest of the field in the 220.

The summary:

The 100-yard dash—Smith (S.F.) first, Steele (L.) second, Roberts (S.F.) third, Time, 16.1-15.2.

The 220-yard dash—Smith (S.F.) first, Steele (L.) second, Roberts (S.F.) third, Time, 37.4-37.2.

The 440-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 1:12.5-1:12.2.

The 880-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 2:31.5-2:31.2.

The 1760-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 5:50.2-5:50.0.

The 3520-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 12:22.5-12:22.2.

The 7040-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 25:22.5-25:22.2.

The 14080-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 50:22.5-50:22.2.

The 28160-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 1:00:22.5-1:00:22.2.

The 56320-yard dash—Roberts (S.F.) first, Smith (S.F.) second, Steele (L.) third, Time, 2:00:22.5-2:00:22.2.

When Johnny Wolgast took the count from Bert Colima at Jack Doyle's swat stadium the other night another brother had failed to perpetuate the family pugilistic renown.

On their respective ring ability one would not suspect Johnny and Ad of being even slightly related.

Still fresh in the memory of many ring fans are the efforts of Jack Jeffries to redeem that part of the family treasure known as the heavyweight title when Brother Jim should discard it. His efforts consisted of one battle, which was staged at Hazard's Pavilion, Fifth and Olive streets, a rather historic lumber building of barn-like proportions, which echoed to the blows of such fighters as Kid McCoy, Jack Twinn Sullivan, Harry Foley, Dave Barry, Denver Ed Martin, Sam McVey, Jack Johnson and a considerable line of others.

This was two or three years before the retirement of Jim, but the big fellow had about fought himself out of a job and, with nothing more in sight worthy of conquering, an undefeated exit from the ring could be foreseen.

That was considerably before the days of white hopes, but even at that distance the shadow of Jack Johnson fell rather ominously athwart the heavyweight division. Only the extremely wise ones, however, regarded him at that time as little more than a tough trial horse.

However, a movement was set on foot to perpetuate the championship in the white race in general, and in the Jeffries family in particular. So Jack Jeffries was singled out as the hope of that early day. Jack was a fine specimen physically, not as heavy as Jim, but powerful.

HONOR RAIN CHECKS SUNDAY.

A. M. Young, manager of the Los Angeles Speedway, announced last night that rain checks from tickets in grand stand "A" would be honored at the gate and also would admit holders to the seats in the stand, but grand stand "B" rain checks would admit holders only to grand stand and it will be necessary for them to present the rain checks from their admission tickets to get into the speedway grounds. Young explained that the grand stand "A" tickets combined both the entrance stub and seat check, with a rain check covering both, attached. There was no combination ticket for grand stand "B," however, and both the seat ticket and the entrance ticket had rain checks last night.

It also was announced at speedway headquarters last night that all officials' badges and employees' tickets and badges had been canceled and it will be necessary for officials and employees to call at the speedway office for the new credentials.

JIMMY SPRINGS HUGE SURPRISE.

Murphy Puts One Over on Speedway Pilots.

Discs Over Wheels Increase Speed of Car.

Gains Idea from Airplane Construction.

Jimmy Murphy sprung an "ace in the hole" on the speedway last Sunday. The little Irishman came on the course with what looked like Disteel wheels; but they were discs over wheels.

The driver and his mechanic, Ernie Olsen, had designed and perfected the discs of spun aluminum and the device increased the speed of Jimmy's Duesenberg one full second to the lap—an increase of from 113.3 to 114.8 miles per hour. The discs had been fitted out in secret practice and pronounced O.K. a week before the race; but no announcement was made of the attachment and it was a surprise to the other drivers and the race fans when Murphy rolled out for the race.

OFFERED ROYALTIES.
So satisfactory is the innovation that Murphy has been offered royalties by parties who wish to manufacture the aluminum discs.

In the past, Murphy has used wire wheels exclusively, while many of the other drivers have adopted the Disteel wheels, which they claim are faster than the wire rollers, because they keep the wind out from under the car. There is but one objection to the Disteel wheels, namely, the quality of the wire wheel with the Disteel features in its aluminum discs.

USED ON PLANES.
Instead of drawing in, like the Disteel wheel, Murphy's discs, fastened on the outside of the wire spokes and held in place by steel lugs, are drawn out to the hub caps. This design has been adopted in airplane construction and, it is claimed, adds fifteen miles an hour speed to the plane in the air.

WHITE SOX ARRIVE AT TRAINING CAMP.

(BY A. P. MORTIMER.)
SEQUIN (Tex.) March 1.—The vanguard of the Chicago White Sox, twenty-five strong, arrived at their training quarters here today from Marlin Springs, where they have been working out for a week. Other members of the team are expected later today and tomorrow, and training will begin as soon as the cloudy and freezing weather moderates.

SAGEHENS DUE FOR TRIMMING.

Tigers Haven't Won Dual Event in Years.

Bengals Ready to Turn on Claremonters.

Pomona's Expect to Put Up Titanic Struggle.

CLAREMONT DOPESHEET.
POMONA, March 1.—The question now uppermost in the minds of Southern California track fans is the result of the annual meet between Pomona and Occidental, which is to be staged at Claremont Saturday afternoon at 2:30 o'clock. On the face of it everything would seem to point to a large victory for Coach Joseph Pipa's Tigers, but a little delve back into ancient history gives the engagement a highly colored aspect. Coach Eugene Nixon's Sagehens sort of have the habit of trimming the favor from every victory and it is barely possible that it will be a hard thing for the Blue and White boys to forget the habit this week. For the past twenty-one years Pomona has thumped Oxy with meniscus regularity. The two institutions got together in 1894 for their first meet, and the result was a tie. The next scrap occurred in 1901, when the Tigers won 43 to 41. And that marks the extent of Oxy's track victories over the Sagehens. Since that time the Sagehens have twisted the Tiger's tail no less than eighteen times. In 1920 the score was 28 to 25 in favor of Coach Nixon's men, and last year the tune was 22 to 25.

Therefore, say the psychology experts, Pomona's track athletes have a historic background which it would seem rather unkind to mar. And there is a whole lot in the theory that a bunch of athletes, knowing the records of the past, will do a great deal better against their enemy when backed up by such a splendid achievement in the years gone by. It is this side of the matter that Pomona's supporters are banking on to make Saturday's engagement a real meet. It appears to the Oxy men as if the time has come when they are to turn. Oxy has been ridden over rough-shod by the Sagehens for so long that they are ready to break a leg in order to prove the boys from Claremont. And from all advance indications this is the year to do it. Oxy has the men, being all represented in practically every event. Pomona is weak in the short track events, the high jump and broad jump. It looks like an Oxy victory for the first time in twenty-one years, but several splendid Sagehens are certain that it will be a mighty struggle.

KIRKWOOD ARRIVES IN SAN FRANCISCO.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, March 1.—Joe Kirkwood, Australian open golf champion arrived here yesterday on the Ventura with Mrs. Kirkwood and his manager, Victor East. After competing in the British open championship this summer, Kirkwood plans to return to the United States to become a permanent resident of this country. He won prominence in both British and American open tournaments last year.

L. A. HIGH BALL TEAM TO FACE CUBS TODAY.

L. A. High School and the Southern Branch will mix on the diamond today in a game to be staged on Hough Field. The game is one of the first games of the season for the Pioneer team and it is expected that some surprises will be forthcoming as a result. The Pioneers have several letter men back this time, but it is also known that the Cubs have a pretty good team so the game should prove interesting.

BEAR AND STANFORD RUGGERS GET READY.
(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, March 1.—Ruby football players at California and Stanford are putting in final workouts this week in preparation for their annual game March 4 in the Stanford Stadium. A tentative date early in April has been set for a return game, probably to be played on California Field.

Additional Sport News will be found on Page 10, Part II.

A High Stepper.

Ridderhoff will be pitted against some real class when he lines up beside Charlie Dages of Pomona Saturday. These two barrier men have met several times before and the Oxy flash has always given Dages a close race. Another neck-and-neck contest is anticipated at Claremont Saturday.

MIDWICK FOUR SUBDUES ARMY.

(Continued from First Page.)

The first goal in the extra chukker would be hailed the candy kid.

IN DESPAIR.
Expectation ran high in the extra chukker as Referee Boucher tossed the ball from the side lines near the Army goal. The Senators tore after it with a resolution born of despair. Their malice flashed in the air like vapors in a cavalry charge. The Army lads in stark bewilderment were carried off their horses' legs. Suddenly, Hughes squibbed the pill for a few feet. Near him was Miller.

Teddy cut a caracol that would have made a circus rider groan with envy. The quick wheel brought him into a narrow alley. His stroke was perpendicular close to his saddle. And what a stroke!

The ball shot forward, but not one person in a thousand would imagine that it could cut through the angle that confronted it. On it went, and then, Capt. Rogers, suddenly sensing danger, turned toward like a mania. His horse fairly leaped over the moving pill but his mallet missed and the sphere in mocking play just squibbed through the two posts. A shoe horn could not have made a tighter slip in, and Teddy was hailed the hero of the day.

The line-ups were as follows:
MIDWICK SQUADS.
No. 1—M. J. Hughes
No. 2—C. J. Rogers
No. 3—E. J. Miller
No. 4—T. J. Teddy

This afternoon the San Mateo four will meet Del Monte. The track will begin at 2:30 o'clock. The match is open to the public.

TJUANA RESULTS.

(EXCLUSIVE DISPATCH.)
SAN DIEGO, March 1.—Outside horses won with regularity today at Tijuana, but the main feature of the day's card was the consistent riding of Jockey Huntamer, who won three straight races and brought his mounts into the money in each of the other five events. Huntamer started with Ternette in the second with a good price and repeated on Plantagenet in the third at the next to the longest price of the day. He came right back on the favorite Frank Wilson in the fourth.

The results:

RALPH SMITH CHALLENGED.

Sully Montgomery, Center College Athlete, Seeks Match With L. A. A. C. Ring Goliath.

(EXCLUSIVE DISPATCH.)
EL PASO, March 1.—Sully Montgomery, Centre College athlete, wants to fight Robert Edgren's now pugilistic hope, Ralph Smith. Sully, who is official referee of S. G. Gonzalez's Juarez boxing club, aspires to heavyweight honors himself. Under the direction of Ben Dobbert he expects to come day wear Jack Dempsey's crown.

"After 'lampin' Edgren's cartoon picture of Ralph Smith in Saturday's Herald," observes Sully, "at first I got the 'willies' but on second thought I made up my mind I was ready to fight the guy with the long reach in the Garden arena at Juarez right now."

HE MAY GROW.
"Why wait?" Ralph Smith already has a reach of eighty-five inches and he stands six feet seven inches tall. He may grow to be seven feet tall and he may stretch out his arms so he can reach ninety inches if I don't take him on before he gets his full growth.

"I notice that in general build Smith is a huge Fitzsimmons, that prize adjective slinger, Bob Edgren, describes him as 'lean, wiry, narrow-hipped, straight-legged, with wide, square shoulders.' This description is enough to scare me but I refuse to be 'bulldozed' by any such airy periphrases."

CERTAIN OF CONQUEST.
"I challenge Bob Edgren to bring on his 'hope,' and I'll finish him before El Paso sports in a Juarez ring."

Sully is in earnest about fighting Ralph Smith. If Smith and his sponsor, the noted cartoonist, Edgren, are ready, Montgomery is ready. What say you, gentlemen? Do you mean business or are you only sports?

Sully Montgomery will referee tomorrow night's main event between Battling Barrera and Brannigan in Juarez. Kid Koeber and other ring celebrities will be at the ringside.

Altogether it will be a "large evening" for the followers of sport.

Ralph Smith is at present confined to his bed in a local hospital as a result of an automobile accident and may not be able to accept the southerner's challenge for several months.

SIXTEEN QUINTETS IN PREP TOURNEY.

(BY A. P. NIGHT WIRE.)
SPOKANE (Wash.) March 1.—Sixteen high school basketball teams will take part in the inland high school basketball championship tournament to be staged on the floor of the Spokane Amateur Athletic Club March 2, 3 and 4.

Teams will represent the following high schools: Sprague, Vera, Spokane, North Central, Oakesdale, Latah, Wallace, Georgia High, Brewster, Libby, Naches City, Kennewick, Couer d'Alene, Prosser, Ephrata, Nespelem and Girdle.

LEONARD MAY BE KEPT OUT OF RING.

(BY A. P. NIGHT WIRE.)
NEW YORK, March 1.—Benny Leonard, world's lightweight boxing champion, may not be able to enter the ring for at least six weeks because of an injury on the back of his right hand. This information was given late today by Billy Gibson, the champion's manager, to Frank Viornoy, matchmaker for the Madison Square Garden Sporting Club, who had tentatively arranged to match Leonard and Charley White of Chicago in a title bout here on March 17.

REDLANDS AND U.S.C. CONNECT.

Bulldog Cinder Squad Meets Trojans Saturday.

First College Dual Contest of the Season.

Freshmen to Run on Redlands Aggregation.

U.S.C.'s abbreviated oval at Boverd Field will be the scene of the first intercollegiate dual meet of the present season Saturday afternoon when Redlands' track stars see what they can do against the nifty Trojan representatives. Due to the fact that neither team has been exposed to the naked eye in full force this year, the dopers are considerably handicapped, although the A.A.U. relay carnival results furnish comparative dope in several events.

The Bulldogs will be permitted to use their freshmen, while Cromwell will be limited to varsity material. Redlands' first-year men make up the backbone of the team, such athletes as Bob Allen, Kubias, and Hyde being available through this concession on the part of U.S.C., while a brilliant array of Trojan yearlings will sit in the bleachers Saturday.

THREE ACES.
Bob Allen made himself famous last year by dashing in out in front of the mob in the 120-yard event at the State prep meet, while Kubias is a high hurdler and some renown. Hyde's specialty is the pole vault, although he is something of a sprinter as well.

Added to this trio of point grabbers the Bulldogs will have Lloyd Yount, quarter-mile de luxe, who is expected to make things uncomfortable for George Schiller in the 440 sprint; Knight, an easy winner in the mile, and Cram, sprinter, who are being counted on for places in their respective events.

The relay will undoubtedly bring forth a set of thrills for the spectators. In the A.A.U. relay carnival the U.S.C. four-man mile team preceded the Bulldogs' representatives to the finish by a few feet, but the freshman rule has depleted the Trojan quartet by two men—Hughes and Torkelson. Leashy will probably be pressed into service, and Cromwell will have to recruit some other quarter-mile to complete the team. Hence Redlands' unbroken team of Knight, Yount, Allen and Pemberton is favored to win the final event of the day.

EASY STUFF.
Suede Evans and Johnny Boyle will probably take the first two places in the every weight event, which will add some valuable points to the Trojans' total, and Emmmons is apt to take the honors in the pole vault. Second and third places are being counted on by Cromwell to win the meet.

HOT SHOTS BY WILLIAMS.

(Continued from First Page.)

ful and beautifully proportioned, and with much of the Jeffries ruggedness. He had trained a great deal with Jim, and boxed with him in public exhibitions. Bill young, he was a wonderfully promising prospect and, apparently Jim's logical successor. But in starting him on the career which it was felt would lead to the championship, his friends made the fatal mistake of sending him against Johnson.

The black Jack knocked the white Jack out in five rounds and was completely his master at every turn. Rather an easy victory was predicted for the younger Jeffries, and the spectators sat bewildered as something of the real greatness of Johnson flashed before them. Many felt that they had seen the future champion in a colored chrysalis, although six years elapsed before he had a chance at that title.

Jim was in Jack's corner that night and the latter spent almost as much time looking to his brother for instructions as he did to warding off the blows of his opponent. Is it possible that on that night Jim had a premonition that eventually he must meet the black Nemesis of his brother? This came to pass ten years later. Was it alone to redeem the championship for the white race that Jeffries entered the Reno ring, or did he still have a vengeful vision of his brother laid low by the fists of a black man ten years before?

Speaking in a tribal sense, the clan of Johnson won all around in this family feud.

It is now twenty years since Johnson whipped Jack Jeffries, and yet many still regard him as physically competent to contest the championship with Jack Dempsey. Amazing physical preservation!

Boxing championships seldom run in the same family, although classy scrapers have frequently been found clustered in the same three-side circle.

The Attell family gave to the ring Abe, Monte and Caesar. Abe was featherweight champion and a master, while Monte went down to defeat in forty some rounds before the plodding but relentless assault of Frankie Conley in the old Veynon arena for a belt billed as emblematic of the pantweight championship. Continual hammering over the heart and a tortured eye forced the Attell flag to be lowered after a prolonged epic in gameness.

Caesar, while never threatened with a championship, was far from poor, although it was told of him that in order to catch a certain train he would take one on the jaw or go through all the motions of having taken one there.

Certain families have contributed considerable ring history here. We had the Picato boys, the Trimble and also the Dalton brothers, of which the original Kid was the noblest Roman of them all. When "Uncle Tom" McCarey desired to provide the fans with a Roman holiday without sending abroad for it, he tore the Kid loose from his banana-cart, and paid him to go in and stop a ringful of fists with his chin. The Kid had a knack of making it look as though the arena was alive with hostile fists coming in his direction. It seemed to hail gloves, what was that in a hailstorm to a snowplow?

There are the Gibbons boys, Mike the erstwhile phantom, and Tommy, who aspires by cleaning Grab and Carpenter to demonstrate that he is the best-light heavy in the business.

Leash Cross and his brother made a fine team. His brother was the manager, and as crafty in the box office as Leash was in the ring. Willis Britt, an amateur of some note, also conducted the managerial canoe for his brother, Jimmy.

Right greatness, however, seems seldom if ever to descend from father to son, as witness the offspring of the late Robert Fitzsimmons. Possibility this is because sons are more likely to derive their qualities from their mothers.

Joe Corbett, a great pitcher, aspired to be a great boxer. His brother, Jim, a great boxer, aspired to be a great baseball player. But they had been born apparently to be just what they were.

There are enough of the Shade boys to put on a mob scene. Billy, Dave and George have spread the name of Shade in various parts of the world, including Australia. And their father was a boxer of some ability, thereby seeming to disprove the example cited above. The Shade family lives on a farm at Concord, a few miles from Oakland. I am told that there are eight boys in the family, but have heard of only the three boxing professionally. Billy, George and Dave may not be the best of the breed at that. Old-timers averred that John Jeffries would have been a greater champion even than Jim, because he was more powerful. But as far as known, John, a very able business man, never pulled on a glove.

FILM ACTOR TO MARRY.

JOHN DAVIDSON WILL WED ARTIST. IS REPORT.

By Grace Kingsley.

It looks as though one of our handsomest and most charming leading men in the picture and theatrical world would be a married man before another year is past, if the course of true love continues to run along as smoothly as the principals apparently expect it to.

John Davidson is the aforesaid actor, and the bride-to-be, according to the reports, is no less gifted and famous a person than Helen Dryden, well known as an artist, illustrator and designer of Vogue covers.

Questioned regarding the report, Mr. Davidson did not deny it, but intimated that the wedding will not transpire for several months yet, as Mr. Davidson's picture work keeps him in the West, while Miss Dryden's work requires her presence in New York.

The romance of three years' standing, the pair having met in New York, while Mr. Davidson was appearing there in drama under the Frohman management. Mr. Davidson went East last summer to visit his mother, and also to spend some time with his fiancée.

The actor came West two years ago, and made his debut here as star of the town play, "Obba," and the Bernard Shaw drama, "Man and Superman," at the Majestic. He scored a sensational success, and was sought for by the motion picture.

He has appeared in a number of productions, including the film version of Edna Ferber's "Fanny Herself," which Universal made, and many others. He is appearing at Loew's State Theater with Bert Lytell, in "The Idle Rich," this week, and next Sunday will make his appearance at Grauman's Rialto, playing a leading role in Cecil De Mille's "Foot of the Parade."

Mr. De Mille had taken so deep an interest in Mr. Davidson that, previous to going to Europe, he was grooming him for a director's position, though, due to the illness of Lanark's director-general at present, Davidson is continuing with his acting career until such time as De Mille returns to the studio.

Pantages to Go Abroad.

Folks in this country aren't going to lack places of amusement and good acts to see, if Alexander Pantages, vaudeville master and owner of a great string of popular vaudeville houses in this country, has anything to say about it.

Mr. Pantages is, indeed, so deeply concerned that everybody shall have a good time when they go to his shows that he is planning a trip to Europe, beginning within the month, to sign up foreign acts for France, England and Germany, for which his agents over there have been scouting during the past year.

Mr. Pantages wants to look the acts over himself in order to be sure that they shall be of such a nature that his American patrons will be pleased. He will be gone for a year.

In the meantime he is leasing his Broadway theater to the Goro Brothers, who are to present musical comedy there. This musical comedy, it is understood, is to be a light order of a kind, and some of the popular New York acts.

On Pantages' return, however, he will be back in the Broadway house, where he made his first local success.

Jackie Coogan Will Travel, Too.

All the other little boys in the picture business will now register envy and chagrin. For Jackie Coogan is to go to Europe. This has been definitely settled, and Jackie is going to have a chance to find out whether he is better than his brother, whether the French boys play marbles, and whether it's true that you can't get a soda water for a kid to drink in London.

Jack Coogan, father of the split-pint Jackie, now comes forward to announce that he is setting out on a European tour for his 7-year-old heir. Jackie has three more feature pictures to make on his present tour, and will, so it is rumored, be accompanied by his mother and associates, and there is a strong possibility that one of them will be filmed in either England or France.

The Coogan caravan will leave from Hollywood with eight or ten members of their staff and will tour England, France, Italy, Spain, Germany, Switzerland, Belgium, Norway, Sweden and Denmark, to say, Ireland. They will probably remain abroad from six to eight months.

"I cannot state exactly when we will leave America," said Mr. Coogan, at the United Studios yesterday, "but I do want to make one of the remaining three productions abroad. It would be either in France or England, and in going over the details with Mr. Lesner, we feel that Jackie should make a series of personal appearances while in Europe.

"The people over there seem very anxious to see the child, and we are in constant receipt of orders from our foreign agents asking for full particulars of our proposed visit."

It was learned that should Jackie make appearances abroad, they would be presented on a very high-class order, with the starlet probably surrounded by artists who would make up a program. The feature film made abroad would no doubt form part of the entertainment. A personal representative has been engaged to spread the news of Jackie's expected visit.

Goldwyn Announces.

They're "polishing up" the handle to the big front door" out at the Goldwyn Studios in preparation for production activities. The first picture to start will be "Brothers Under Their Skins," by Peter B. Kyne, adapted to the screen by Grant Carpenter.

The cast, a notable one, will include Richard Dix, Helene Chadwick, Claire Windsor and Norma Kerry, who is now on his way from New York. E. Mason Hopper will direct.

Rupert Hughes is soon to start "The Bitterness of Sweet," which he will personally direct. He also wrote the story and continuity.

Irene Hunt in Trade.

There are a few of our beautiful young screen actresses who aren't worrying a bit about wolves besieging their doors, no matter how hard the times in the picture world. One of these is Irene Hunt, popular screen player, who, in addition to selling her unquestioned talents on the screen, also, in Alaska

COLLEENS .. ALWAYS .. CHARM .. US.

RADIOS.

METRO REOPENING.

By Edwin Schallert.

Advance information indicates that an entirely new set of stars will be domiciled at the Metro studio on the reopening of that establishment. Fact is, nobody knows just when the reopening will be, but in view of the departure of Joseph Engel, studio manager, for the East it appears as if a definite announcement may be expected soon. Mr. Engel has gone to New York for a conference with Marcus Loew and his associates.

Viola Dana will probably be the only one of the former group of stars who will return. Alice Lake has gone into other productions. Bert Lytell's contract has expired, and it is not likely that he will renew. Miss Dana is still making a personal appearance tour, but is expected to return to Los Angeles in about six weeks.

Rex Ingram's company continues busy at the studio. Arrangements are now in progress for the filming of "Black Orchids," and a schedule of pictures has been outlined for the stellar director of Metro for some time to come.

Of the new stars who will appear at Metro, Mae Murray, it is said, will be one. This will mark her return to California after an absence of more than two years.

It is possible that Clara Kimball Young, who is to release her film through Metro, will also work at the studio.

A trade rumor has it that beginning May 1, Metro pictures will be handled through Paramount, which would mean a radical change in the present booking policy of the company, and a probable abandonment of the exchange.

Executives Visit.

Two principal executives of the Robertson-Cole organization are paying a visit to studios. One is R. S. Cole, the American member of the firm, and the other Pat Powers, managing director of film enterprises for R-C.

Mr. Cole is making his visit to the new studio of the organization. Which brings out the curious fact that Mr. Robertson, who spends most of his time in England, has never seen the new studio.

Authors Present.

A preview of the photoplay "Hungry Hearts" was given during the past week at the Goldwyn Studios. The picture is the adaptation of Anna Yezierska's novel of the same name, in which the principal role is played by Helen Ferguson, with Bryant Washburn also prominently featured. The film was made under the direction of E. Mason Hopper.

Those who witnessed the preview included Mr. and Mrs. Rupert Hughes, Elmer Glyn, Mr. and Mrs. William Fox, Mr. and Mrs. Monty Glass, Mr. and Mrs. Clayton Hamilton, Mr. and Mrs. Abraham Lehn, Agnes Ayres, Mary Thurman, Mr. and Mrs. Joseph P. Kennedy, Mr. Hopper and the members of the cast, comprising Miss Ferguson, Mr. Washburn, E. A. Warren, Rose Rosamow, George Seligman, Otto Lederer, Millie Schottland, Bert Sprout, Abe Budin and Kate Lester.

Dempsey at Hip.

Jack Dempsey is talking a flyer at the circus type of entertainment. He has been engaged to do a special act, titled "A Day in the Gymnasium with the Champion," at a part of the New York Hippodrome attraction "Get Together." The title seems to be sufficiently explanatory.

Changes Releasing Method.

A change in the policy of D. W. Griffith is indicated in the book of "Orphans of the Storm" by the Motion Picture "Intolerance." It is stated by Harry David, managing director of the Mission, that Mr. Griffith himself personally decided to release the new picture, "Orphans of the Storm," in a follow-up shortly after the showing of "Foolish Wives."

FEATURE QUEEN'S SLIPPER.

One of the two dainty slippers believed to have been worn by Queen Marie Antoinette on the guillotine appears in a motion picture produced in the Chicago studio of the Famous Players-Lasker. This slipper, and other priceless shoes, were borrowed from a famous Boston collection and are being shown for exhibition before school children. It is a history of footwear, showing not only what curious shoe people wore in the various periods of history, but also something of their customs and modes of living.

CHINESE REELS.

Under the auspices of Lieut.-Col. A. J. Copp, a local attorney, who served in the Judge-Advocate-General's department during the war, the first showing of three reels of motion pictures of the interior of the Temple of the Great Buddha, Peking, and the interior of the Temple, Pico and Figueroa streets, in the famous area, as well as scenes and customs in Shanghai, Peking, Nanking, Tientsin, All local Masonic bodies are invited.

SHIP "SALOME" NEGATIVE.

The negative of "Salome" was shipped to New York yesterday by the National Trust Company, and is expected to be released and distributed by the production, which will leave for New York for a week or two to arrange for the release and distribution of "Salome," though it is stated that there will be no haste in making the picture because it is not deemed wise to interfere with the success being achieved by Nasmith's "A Doll's House."

CENSORABLE NAME.

Anxiety is felt at Universal City about the title role of Priscilla Beauden, forthcoming Universal picture, "Under Two Flags." The spectacular heroine is called Gigarette. Whether Lucy Page Gaston and other leaders of the Anticigarette League will object has not developed. Tod Browning will direct.

Patsy Ruth Miller.

Who is to brighten "Watch Your Step" next week at California Theater.

SAYS MARKET IS QUIET ON SONGS.

FANNING DECLARES COMPOSERS FIND PUBLICATION IS DIFFICULT.

The bears have control of the market for high-class music. At least, there is a pronounced depression in the demand for the serious music of the present day, song-writing, as well as in other branches and departments of composition.

This is the information brought by Cecil Fanning, the baritone, who is closely in touch with the situation, especially as regards songs. Mr. Fanning is in this city in anticipation of his concert Saturday afternoon at Philharmonic Auditorium, and his remarks are put on the market.

It will be recalled that in addition to his singing, Mr. Fanning also writes verse. In fact, he has even provided libretto for an opera. He is well acquainted, therefore, with several different angles of the musical situation, as regards the favored type of composition.

"There are many brilliant writers and composers of songs in the country today, but the trouble is that the expense of publication has become so great since the war, that really good songs are seldom put on the market," said Mr. Fanning. "They are too speculative a venture for the publisher, who has to sell his hundreds of thousands of copies, particularly where jazz is so fatally easy to obtain and sell."

"I am giving a group of songs Saturday afternoon which were composed by a man now living in London—Arnold De frames of Berkeley. They have not been published; they probably cannot be; yet they are very fine—in the best vein of the modern French school, atmospheric and delicate. The trouble is they are not easy to sing, and the publisher who is not a marketable commodity. I know many cases exactly like this. The crux of the whole matter lies in this—insufficient market to justify cost of publication."

Fanning also expressed some interesting opinions in regard to opera composition. He has recently written the libretto for a one-act Indian opera, the music for which has been composed by Francesco Cossiga, and he is now in the process of writing a new opera, "Aigiala," will be given by Mr. Fanning at his recital.

"I feel that the present tendency in opera is away from wordy declamation toward a style in which simple settings, much use of the voice, and in general an expression more akin to the peasant form is likely to prevail."

"The motion picture industry has cut the cost of opera production, and so allow the general public to hear much more of it. The British libretto for a one-act opera, and the whole tendency today seems to be toward such simplicity."

MONKEYS' COMEDY IN JUNGLE THRILLER.

With an unusual cast, Martin John son's Borneo Jungle adventures will be the principal attraction at the Symphony next Sunday. The comedy is supplied by the monkeys in the tree tops. The villains show their teeth with all of the gusto that modern villains are supposed to have and they commit their crimes to the manner born, or, at least, to the manner of Borneo who prey upon the children of the natives.

The motion picture will thrill after thrill in the production and made a faithful record of the trip where he went at the peril of his life. Dr. Leong and other leaders of Borneo, agreed to let him go up into the interior when Johnson signed a statement to the effect that the government would not be held responsible in case he was captured by the head-hunters or the Malay pirates that infest the lonely reaches of the South Pacific.

APPETIZER FOR WESTERN.

Western stories will probably get a thorough reading in the Universal scene department for a while. Lucien Hubbard, scenario editor, has acquired a horse upon which he covets around the lot. He rides the beast from the studio to the studio. When it rains he parks the brute in the stable and sends home for his car.

The last of this month he will give two recitals at the Second Church of Christ, Scientist, where he is organist. The program at Board auditorium Sunday afternoon follows: Joyous March (Lawrence); "La Chanson Du Barter," a modern French number (Georges Jacobi); "Ein Fens Burg," a parable by F. G. G. Gavotte in F. A. Seventeenth Century number, (Wealey); "Chant des Enfants," an unpublished composition (Gull-mott); Berceuse (Bonnet); Tocata in D Minor (Mally); Andantino in G Minor (Gasser Franck); "Pere-wail" (Fucillain); an old London-derry air and "The Lost Chord" (Sullivan).

BUY GROUND FOR SCHOOL BUILDING.
[EXCLUSIVE DISPATCH.]
SANTA BARBARA, March 1.—The Board of Education, late this evening, voted to buy the Granada tract, of twenty acres, situated on the east side of town, for \$25,000 to be used for high school purposes.

The tract is owned by Mrs. James H. Moore-Knight, and originally was brought by her as a site for a unique residence district. The Board of Education proposes to call for a bond issue to vote bonds for erecting a new high school building to cost from \$250,000 to \$400,000.

To Discuss Rebuilding of Big Hotel
[EXCLUSIVE DISPATCH.]
SANTA BARBARA, March 1.—The fate of rebuilding the Ambassador Hotel, destroyed by fire April 13, will probably be decided by S. W. Straus, tomorrow. He is expected here from Los Angeles tomorrow morning to discuss with local business men the feasibility of a new structure.

Plans for a dinner in his honor had been underway, but today Straus wired from Los Angeles discouraging any attempt at elaborate reception on the spot that his visit here would be in his urgent business in Los Angeles made it necessary for him to return without delay.

In view of this telegram certain bankers and capitalists met with the Ambassador men close to the affairs of hotel company declare that Straus interests desire to rebuild local capital can finance a part of the cost of a modern, all proof structure.

Tot's New Gingham Frocks
FOR all the world like a posy in her blossoms, colored Spring Gingham—Simple as Mother's—yet all of that, but—quite entire new, Mother's never, never had such gorgeous embroidery, nor such fascinating animals and flowers and things all applied on. Speaking of Hopes

If one has a treasured hope chest—no Spring bride could ask a lovelier contribution than these Linens, of heirloom quality, assembled for dining-room, bedroom and bathroom, and representing the choicest weaves of great looms the world over.

The New Frocks for Spring are Designed Upon Varying Themes of Beauty

TRADITIONS of romance and mystery and old world lure have been ingeniously interwoven with the very texture of the wide-ranging fabrics of these new Frocks, as well as into their marvelous color and design. Side by side with conceptions which have the languorous Orient written upon every line, are spirited creations inspired by the never-idle Middle European peasants, and straightforward little affairs that bespeak their outdoor vocation and their English origination.

The New Suit Chosen by the Smart Set

Undoubtedly it must be three-piece, with a new natty air about its short little jacket, trigly squared away as to style. The bodice will be fashioned like the upper half of a frock of contrasting fabric but harmonizing tone, achieving an ensemble smart beyond words. Of imported tweed, the Suit color may be a lovely tan or any pastel shade. Of twill, rep, tricotine, cordine—it may be peasant blue, loam, alamo, or one of the standards—navy, brown or black.

(Third Floor)

Smart Wraps With Intriguing Linings

Like the proverbial cloud, the new Wrap of the season has its complement in lining which appears with a gorgeous splash when Madame shrugs the thing from her slim shoulders. Exquisite silk crepe Wraps have smart stand-away collars of the fabric or bunchy ones of contrasting material. Big plaid Cape Wraps of Marvella have quaint sleeves and a pussy willow lining. A blue twill has touches of white on collar and sleeves.

A Distinguished Group of the Plain Woolens for Spring

IS assembled in that Section of the store devoted to the selling of such Fabrics. These names suggest old-time favorite weaves which never go out of style, despite the temporary popularity of season-to-season materials.

Millinery

Is Keyed to the Note of Spring

KEYED to the lilting mood of irrepressible Spring, Hats are in Dame Fashion's gayest manner. If it is a simple fabric shape of pastel tone, soft little feathery balls dance sprite-like from edge of its brim. A tailored black moire, elegant, distinguished, has a down-bent brim that casts coquettish shadows over one's face making ducks and drakes of one's dignity. A big leghorn in picture style is frankly nothing but a dreamer, wreathed with frivolous organdie flowers. Little and big, they're charmers, all.

We guard our throats against germs

"We first became acquainted with Formamint when our doctor, several years ago, prescribed it for an epidemic of sore throat. You know how it runs through a family."

"We like Formamint because it relieves so quickly and is so much more convenient than gargles and sprays, especially for the children who hate such remedies."

"Then you remember the 'flu' epidemic. How fearful we all were of crowded, stuffy places; theatres and shops; crowded cars and ill-ventilated school rooms. Again the whole family 'Formaminted' their throats and mouths, by using the pleasant tasting tablets freely, whenever there was danger of contagion."

"Formamint must be really antiseptic, because none of us had the 'flu,' and few had sore throats, that whole winter. You can get our family down as Formamint enthusiasts."

Recommended by three specialists, physicians, dentists and druggists.

FIGHTS STATE INTERFERENCE.

Stephens Resists Effort to Unseat Kibele. Attorney-General Urged to Deny McKee's Request.

City Attorney Stephens yesterday afternoon forwarded to Atty-Gen. John C. H. Kibele, an answer to the application of President McKee of the Board of Harbor Commissioners for permission to sue the state for interference with the harbor.

"We believe," said City Attorney Stephens in his answer, "that the state is not a party to the controversy and that the public interest requires that the state of California, through its honorable Attorney-General, should intervene and deny the application of the harbor commissioners."

That there is a complete absence in the Kibele case of the essential characteristics of a lawsuit, namely, a desire to obtain relief, and that the harbor commissioners are not a party to the controversy, is the basis of the City Attorney's contention.

Mr. Stephens also stated that the harbor commissioners are not a party to the controversy, and that the public interest requires that the state of California, through its honorable Attorney-General, should intervene and deny the application of the harbor commissioners.

REWEED .. TO .. RECTIFY .. ERROR. First Marriage Is Defective, They Try Again.

Mrs. Florence Stone Ferris.

MRS. FLORENCE STONE FERRIS, actress, and one-time wife of Richard "Dick" Ferris and Jack Richardson, motion picture star, will be married by Judge Summersfeld at the home of Frank A. McDonald, Mrs. Ferris's attorney, 1455 South Norton street, at 8 p.m. today.

COURT SCENE IS DRAMATIC.

(Continued from First Page.)

She said that Belton was with her at the time. "Did Belton see her again?" she was asked.

MOTHER'S STORY.

Then Mrs. Kennedy began her story of the fight for possession of the young affectionate man. In her narrative she painted a picture of Belton fleeing from the wife of a designing woman. She told of the visit Mrs. Obenchain made to the house to see Kennedy, of how Mrs. Obenchain even moved to the neighborhood to be near the young man.

GAZES AT WITNESS.

Throughout the testimony Mrs. Obenchain gazed at Mrs. Kennedy. At times her eyes were filled with tears. She bit her lips and seemed to desire to rise and defend herself.

SAYS REPORT CONFIRMS VIEW.

Musket Issues Statement About Power Audit. Results of Investigation Filed With Council.

Bureau States Last Year Left Large Surplus.

Councilman Musket issued a statement last yesterday declaring that the audit of the books of the City Bureau of Power and Light made by Price, Waterhouse & Company, which was submitted to the City Council yesterday by the Board of Public Service Commissioners, confirms his charge made previously that the reports of the board were misleading and that audited proper standardized accounting it would be shown that the city's hydroelectric enterprises are being operated at a profit, as the board declares.

Following the making of Mr. Musket's charges, the board asked for an audit of its books to determine whether the board or Mr. Musket was correct. The Price, Waterhouse & Company report submitted to the Council yesterday covers the operations of the city's Bureau of Power and Light for the year ending June 30, 1921. It showed a surplus for the fiscal year of \$1,100,834.44 and a surplus for the year ending June 30, 1922, of \$1,112,932.77. The commission state that the report, which the Council received and without comment, ordered a house Co. were employed by the Public Service Commission to audit the books of the bureau.

MUSKET'S STATEMENT.

Councilman Musket said in his statement: "A reading of Price, Waterhouse & Co.'s report does not lead me to believe that the report is a fair and accurate statement of the facts. It is a statement of the facts as the board wishes to present them."

CALL INVESTIGATOR.

Following Dr. Finley was J. N. Stevenson, an investigator for the District Attorney's office. Stevenson was in the jail dispensary at the time the thorns were removed. Then came Charles Riemer, another State investigator. He testified that he went immediately to the place where the thorns were discovered and cut from the neck in which the assassin hid a bundle of thorns which he presented to the jury. It was the contention of the prosecution that the thorns found at the scene were the same variety as that removed from Burck's knee.

MILITARY TESTS.

After exhibiting the thorns, Riemer told of taking the same car that Burck rented on the night of the slaying and of going over the route which the suspect is supposed to have taken. The route Riemer took is said to coincide with the route which Burck took on the night of the murder.

COOK IS FOUND DEAD.

Bottle With Ginger Label on It Discovered on Body.

Walter N. McDonald, aged 37 years, a cook, was found dead in the rear room of a soft-drink establishment, in the 500 block on East Fifth street, early yesterday morning. Detective Sergeant Lawler, who investigated the case, found an empty bottle on McDonald's table that had a Jamaica ginger label on it. Papers found on the body indicated the man had been in the neighborhood of the crime.

SENTENCED TO JAIL.

Fleeds Guilty of Failing to Provide For Child.

Guy R. Martin, who insisted upon pleading guilty to failing to provide for his minor child and asked for an immediate sentence, was accompanied by Judge Summersfeld to the County Jail for two years. The county will pay him for his work on the roads at the rate of \$1.50 a day, which will go to his wife. The Board of Supervisors say they now have plenty of room to place failure-to-provide men.

DISPUTE IS ENDED BY DEATH.

George Buck, Trying to Act as Arbitrator in Billiard Game, Fatally Shot.

Excitement over a game of billiards led to a dispute and to a fatal shooting in a downtown billiard hall last evening. George Buck, a young man of about 25 years, was shot and killed by a man named Chapman, 26 years old.

The report of Detective Cato and Cahill shows that Chapman was playing a game of billiards with George Buck, who had been engaged in a game at an adjoining table, stepped between the two quarrelling players.

"There's only one thing to do," he cried, "Spot it."

There was another scuffle, a shot and Buck lay on the floor with a hole in his temple. Chapman was absent when the police arrived. He is said to be about five feet eleven inches tall, 160 pounds in weight and a blond with reddish hair. His words were "Buck, who had been engaged in a game at an adjoining table, stepped between the two quarrelling players."

CONSTRUCTION PROJECTS.

"We examined the authorizations for all the construction projects and made substantial tests of the charges thereto and found them to be in error. We would, however, call your attention to the larger proportion of the charges for the years 1920 and 1921 charged to construction. While there may be substantial arguments for the treatment adopted, we do not believe that such expenditure would have been materially less had the construction work been in progress. Consequently we cannot consider the policy adopted as conservative or prudent."

ALL-YEAR CLUB BOOKLET READY.

Summer Climate Shown as Great Attraction. Pictures Feature Delight of Living Here.

Southern California Map in Colors Included.

A new booklet, issued yesterday by the All-Year Club of Southern California, is now ready to bring home to the East, through both word and picture, the story and the glory of Southern California, and the delightfulness of the Southland as a place of residence twelve months in the year.

The booklet, which has an important part in the advertising campaign, through which the All-Year Club is making known to the world that Southern California has the sunniest, the warmest, the most delightful climate in the world, is considered by experts who have seen it as one of the most notable publications on the Southland that has ever been published. In addition to many handsome illustrations, which touch on nearly all phases of Southern California's attractiveness, the booklet chronicles the section's appeal for the visitor, the homemaker, the investor, the business man and the manufacturer.

SHELTERING WALL.

The booklet cover is a strikingly beautiful all-over conception in four colors of the sheltering wall of mountains that safeguards the sunlit Southland and that makes it a veritable jewel beside the rest. Robert Freeman, a well-known local artist, painted the cover.

The booklet was prepared under the direction of the advertising committee of the All-Year Club, whose members are John R. Brown, Don Francisco, E. C. Peck, M. M. Rathbun and C. G. Milham, chairman. The late G. Harold Fowler was also a member of the committee and the late John J. Byrne also took an active part in outlining the general policy of the booklet. C. G. Milham, who is also chairman of the All-Year Club executive committee, is the author of the booklet.

In addition to giving a general story of the Southland, the booklet contains a series of articles describing the various counties which are participating in the All-Year campaign. Also there is an excellent map in four colors showing the Southland and the location of some of the adjacent territory.

GENERAL TONE.

The general tone of the booklet is rather well reflected in its forward: "We mean that California is yours to enjoy whenever you wish. The finest railroads in the world are ready to transport you from any part of the continent, and a moment's notice, great luxurious steamships are at your service to convey you from the Atlantic Coast, and the highways invite you to know their turning miles."

"Choose any that you will, and come! Know for yourself the joy of living in California; know for yourself the delights and splendors that the world's greatest playground holds in store; know for yourself the balmy rainless days and cool nights that make of summer here in Southern California an unending recreation; learn for yourself that California, Southern California, weaves for all who come to her a spell that they will rejoice all their lives to have known."

BOXING FANS BOOST NAVY MEN'S PROJECT.

CROWD AT DOYLE'S SUPPORTS CRUCIFIX BENEFIT PROPOSED CLUB.

"Fight fans are good boosters," declared Miss Gertrude Comstock, business manager for the City Mothers' Bureau, conducting a campaign to sell \$5,000 tickets for the Chief Petty Officers' cruise, which opened at San Pedro last night.

Jack Doyle believes the 18,000 naval men, based at San Pedro, should have a recreational home at the harbor. Miss Comstock asked permission to sell tickets for the Vernoy arena Tuesday night. Doyle agreed, reserved ringside seats for the ladies, and told them to "go to it." It was their first visit to professional boxing, and Doyle ruled that they should not miss any of it.

C. Lytle Harris of McIntyre Brothers, Long Beach, told the assembled fans of the efforts of the City Mothers to provide a home for the naval men. His appeal met with instant favor. The sale of tickets exceeded expectations.

Four Out of Every Five

Four people out of every five who pass the age of forty, and thousands younger, are marked by Pyorrhea for its victims.

Does that include you?

Startling as these figures are, they are accurate statistics which your dentist will verify.

When Pyorrhea comes, it does its deadly work quickly. It loosens the gums until they recede from the teeth, which drop out or must be pulled.

It forms sinister pus pockets at the roots of the teeth. Germs breed in these pockets, then swarm throughout the system.

Ill health often follows and serious sickness.

Don't sit idly by and wait for Pyorrhea's coming. At the first danger sign, tender or bleeding gums, consult your dentist and begin using Forhan's For the Gums.

If used consistently, and used in time, Forhan's will prevent Pyorrhea or check its deadly course. It is the formula of R. J. Forhan, D. D. S.

Use Forhan's as a dentifrice every day. Brush your teeth with it regularly. It keeps the teeth and gums in a clean, healthy condition.

Don't put off buying Forhan's until tomorrow. Remember—four out of five wait too long. 35c and 60c tubes at your druggist's.

SUCCEEDS WHERE DOCTORS FAIL

Lydia E. Pinkham's Vegetable Compound Often Does That. Read Mrs. Miner's Testimony

Chauvauco, N. Y.—"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about your Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound for female troubles and backache. It is a great help in carrying a child. As I have noticed a difference when I didn't take it. I thank you for this medicine and if I ever come to this point again I do not want to be without the Vegetable Compound. I give you permission to publish this letter so that all women can take my advice."—Mrs. FRED MINER, Box 102, Chauvauco, N. Y.

It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but find no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner. All ailing women ought to try this medicine. It can be taken in safety by young or old, as it contains no harmful drugs.

Bay League High School Girls Stage Meet.

Venice Plunge Will be Scene of Action.

Six Aquatic Teams Enter for Competition.

BY IDA R. KOVERMAN.
The annual Bay League high school girls' aquatic meet will be run off in the Venice plunge tomorrow night. Teams representing at the high schools at Venice, Santa Monica, Redondo, Huntington Park, Inglewood and San Pedro, will participate.

These teams are to promote swimming and diving among the girls and is of great assistance in developing promising material. The events will consist of 100-foot free style, 100-yards free style, 100-foot back stroke, 100-foot breast stroke, 100-yards distance, low spring board diving, 400-foot relay 4 girls teams and a side-stroke swim for form.

The possibility of a new star at breast stroke is being claimed by Gus Peterson, the well-known coach of San Francisco, who states that one of his young pupils, Ingvald Eklund, is doing such fast work at practice that he feels confident he will develop into a champion in short order. The lad has never entered open competition and Peterson expects to enter him in the Southern Pacific championship events this summer.

The Portland (Or.) Natatorium claims to have discovered a logical successor to the famous Norman Ross, who is a native of Portland, in Jimmy Egan, a lad of seventeen who is credited with covering 500 yards in 5m 38 s., 250 yards in 1m 11m and one mile in 23m 48s., all in a seventy-five-foot pool. Portland wisecracks point to these performances for so young a lad as evidence of his all-around swimming championship possibilities.

A new girl back-stroke champion has appeared in the person of Miss Sybil Bauer of the Illinois Athletic Club, who has recently hung up a record of 1:10 for the 100 yards fair to stand for some time to come. Miss Bauer covered the 100 yard backstroke in 1m 17s., and 150 yards in 1m 59 s. 2. These marks are remarkably fast and records do not reveal any fair mermaid who seems able to come anywhere near the times. The former record for 100 yards was 1m 21s., and Miss Bauer brought in the 100 yard record from 2m 6s., down to 1m 59 s. 2.

Elimination Bouts at Stanford Will Determine Who Will Represent College.

(REUTERS DISPATCH.)
STANFORD UNIVERSITY, March 1.—In elimination matches Saturday night, Director Jimmy Ross of the Stanford boxers will determine who is to represent the Cardinal against California on March 11, and against the University of Southern California at Los Angeles March 25.

Brad Simmons, 115-pounder, has been declared ineligible, leaving Petta the only contender in this weight. Kenneth Shipp, with 125 pounds, is leaving college, and has forced Jimmy Ross to go into this division. Jack Fishburn, 150-pounder, is leaving college, and has forced Jimmy Ross to go into this division. MOREING LEASES STOCKTON BALL PARK.

(BY A. P. NIGHT WIRE.)
STOCKTON, March 1.—Charles Moreing, part owner of the Sacramento Coast League Club, today signed a 10-year lease to the Oak Park baseball grounds in this city. This park is owned by the city and the lease calls for Sunday morning games here during the regular season.

Moreing also announced that construction work would start at once to increase the capacity of the park, one third, seating 5000 people.

Morgan's time was 24 hours 51 minutes for the 200 miles, establishing a world's record.

Hod Gala Swimfest. PERSONALITIES OF THE SOUTH LAND AND GOLF LINKS.

BY ALMA WHITAKER.

Harold B. Lamb of Salt Lake, once popularly known as the "Sheep" (no, not the Sheik), is back in town again for a few weeks, after an absence of over four years. Ham't been here since he lost the Southern California championship to Bob Cash by a putt on the thirty-sixth hole in 1918, after he had won it with such ease in 1917. He looks just the same—time has dealt lightly with the Salt Lake golf hero.

Bill Bacon who has added matrimony and paternity to his responsibilities in the last two years, the proud papa of a baby girl, nearly two months old. So Bill may now enter the ranks of the golf champions after all. It takes such very notable exceptions amongst the bachelors to ever achieve any worth while distinction in the game. But it may take a couple of babies before Bill can honestly be recorded as a "steady player who is always hard to beat."

Mrs. C. P. Thomas, fondly known as Elsie to her intimates, is chairman of the women's championship committee this year. The men have designated the course upon which not all his prizes picked before the Los Angeles Country Club—they knew better than to set the date. "She" has always had the privilege of naming the day. Mrs. Thomas will, therefore, call her committee together shortly and announce the great decision. The committee includes Mrs. Paul J. Pitner of Midwick, Mrs. Luther Kennett of San Diego and Mrs. George Midgley of Brentwood.

Mrs. Luther Kennett, so long a champion, both as Isabel Smith and under her present title, may again be regarded as a serious contender for the laurels this year. She is rather remarkable young woman, this Isabel Smith Kennett. She can devote one year to raising a new baby and win a golf championship the next with a most admirable consecutive efficiency. She is clever at everything she undertakes, whether it is golf, tennis, dancing, swimming, bridge, matrimony or maternity. And though it all she remains youthful and good looking.

A name that will impress the elect as that of Mrs. F. L. Wrightman, amongst the representative golf dames. But actually she is the widely known character who first shot country club circles as the beautiful Bertha Crouch, later as the chic and sophisticated Mrs. Mark Chase, and now in this new capacity. No one quite knows when it happened, but it was but a few weeks ago and we understand Mr. Wrightman's name from Long Beach.

Jack Niven, once a championship golfer, has applied for a 10 handicap. Yes, actually 10, by his own request.

OREGON NINE HIT HARD.
(BY A. P. NIGHT WIRE.)
EUGENE (Or.) March 1.—Practice in the batting cage has been occupying spare time of members of the baseball team of the University of Oregon, and Coach Bohrer has been busy figuring on the make-up of the aggregation he will use in the approaching season.

Coach Bohrer has decided to use the team he has proved a blow to this year's prospects. Experienced men on whom Bohrer will rely for the heavy lifting this year are Rolfe Gray, pitcher, "Spike" Leslie, catcher, Franz Beller, second base, and Don Zimmerman in the outfield.

Freshman hurlers of last year include Phil Ringle, Doug Wright and Lefty Baldwin, all of whom are now available in making up the roster pitching staff. Altogether, about 40 candidates for the team have signed up for spring practice.

Oregon has twenty-two northwest conference games scheduled, meeting Willamette University, University of Washington, Washington State College, University of Idaho, Whitman College and the Oregon Agricultural College.

BREEZES FROM SPRING CAMPS.
(EXCLUSIVE DISPATCH.)
MYRTLEDALE HOT SPRINGS, March 1.—With ten members of the Oakland baseball team arriving today the squad under charge of Manager Ivan Howard tonight numbered twenty-seven. There are six missing and these men are expected to report at once. Claude Cooper, center fielder of last season is still a holdout, but there is to be a conference with him this week and Howard thinks he will come to terms. The entire twenty-seven had a workout at the ball park this afternoon with the boucher doing the hard work. In the infield. Most of the pitchers have reported in good shape.

SEALS TRAINING CAMP (Boyes Hot Springs) March 1.—There are no "fat men" at the Spa this year, ball players who have to take off weight to get into condition for the season. The experts who are here with the Seals have an idea that Kidult might show up with such baggage. And they were agreeably surprised when the infielder put in an appearance today with every indication that he is in play. Kidult announced that he has been doing a certain amount of exercising.

There is so much talent here that Manager Miller announced this afternoon he will choose sides tomorrow and let the regulars take the weight to get into first training season contest. By Monday the entire squad will be on deck, and training-camp days will have a charge at Stanford while Warner is in the East.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, March 1.—The Olympic Club basketball team will leave tomorrow for Reno to play a two-game series with the University of Nevada Friday and Saturday nights. Milton Lauterwasser, George Gavin and Dick Berend are forwards, Leo Boyle, Dutch Schweitzer and Emil Tarrague as guards will constitute the squad.

COACH WARNER ARRIVES APRIL 4.
(BY A. P. NIGHT WIRE.)
STANFORD UNIVERSITY, March 1.—Glenn Warner, University of Pittsburgh football coach, and Tiny Thornhill, one of his former students, will arrive at Stanford in time to start spring football practice April 4. Warner is to be advisory coach at Stanford until 1924, when his contract with Pittsburgh expires, after which he will come West. Thornhill will have charge at Stanford while Warner is in the East.

New Lens: "Perifused"
NOTHING is more admired than the new Perifused Lens—a step toward the perfect eyeglass. By eliminating annoying edge reflection, Perifused improves the old-time favorite—inconspicuous rimless glasses—because Perifused Lenses are invisible from the front, yet offer pleasing rimmed silhouette from other angles.
